## **WEDC lists top economic development deals of 2019**

**MADISON, WI. DEC.26, 2019** -- The Wisconsin Economic Development Corporation (WEDC) today released its list of Wisconsin's biggest economic development deals of 2019. This calendar year, WEDC assisted 289 businesses and communities across 16 industries, totaling more than \$250 million in awards.

The more than \$1.2 billion in planned capital investments for the projects supported by WEDC this year are expected to create more than 3,165 jobs and retain almost 14,000 jobs across the state. Of these awardees, 31 have planned capital investment of more than \$10 million.

WEDC's 2019 awards consisted of 158 grants, 47 investor tax credit awards, 20 loans and 57 historic preservation or business tax credit awards.

"These companies and communities play a key role in strengthening our state's economy by investing in Wisconsin and creating jobs that pay well," said Missy Hughes, secretary and CEO of WEDC, the state's lead economic development organization. "2019 was a successful year for WEDC in carrying out our mission to advance and maximize opportunities for Wisconsin businesses, communities and people to thrive in a globally competitive environment."

The list is based on all corporate expansion and attraction projects in which contracts between WEDC and the company were executed in 2019. The job projections, estimated project costs and the award amounts from WEDC are based on the requirements set forth in each contract. All WEDC tax credits are performance-based, and the amount of credits a company receives is contingent upon the actual numbers of jobs created and the amount of capital investment made.
