Don Nelson Pledges to Protect Constitutional Rights

Tomahawk, Wis – Don Nelson, candidate for the 35th Assembly District, has put forth his plan to defend 2nd Amendment Rights, guarantee lawful gun ownership, and ensure the self-protection of law-abiding citizens.

“Our 2nd Amendment rights have been under attack for years. Democrats from across the country are no longer pretending they do not want to take our guns from us. The ability to keep and bear arms is a fundamental right in American history and the ultimate protection against tyranny. Every law-abiding citizen should have the opportunity to defend themselves.”

Nelson’s plan includes:

- Standing up for sportsmen to ensure their ability to recreate outdoors. Hunting is a special tradition for many Wisconsinites that requires the use of a firearm. The recent decision of the DNR to cancel some hunters’ safety classes is simply unacceptable.
- Opposing gun control bills put forth by Governor Tony Evers and his Democratic colleagues to implement “Red Flag” laws and Universal Background Checks. These laws do nothing to lower gun violence. People who have not been charged or convicted of a crime should not be subject to gun confiscation and grandpa should not be charged with a felony for giving his grandchild a rifle without first checking with the government
- Supporting Constitutional Carry laws to allow every legal gun owner the opportunity to defend themselves outside their home. Currently, any law-abiding person can carry a firearm if it is visible. However, if they decide to put the firearm in their purse, or put a jacket on which conceals it, they instantly become criminals. Don’s plan would allow individuals who have purchased a firearm legally to carry it concealed without a permit while maintaining Wisconsin’s CCW program for reciprocity.

“I am fortunate to have grown up in Northern Wisconsin where people understand the importance of lawful gun ownership. I am a longtime hunter and outdoorsman as well as a lifetime member of the NRA. I am committed to defending your right to own firearms and protecting your 2nd Amendment rights.”
