Marklein Statement on Violence at the US Capitol

Madison, WI – Senator Howard Marklein (R-Spring Green) released the following statement on the violence at the US Capitol:

“Several months ago, windows were broken at my office at the State Capitol, twice.

I said it then, and I’ll say it now, there is absolutely no justification for violence to express an opinion. I condemn the violence at the United States Capitol building today and hope that all citizens will seek peaceful resolution to our differences.”
