Rep. August Responds to Violence at the US Capitol

Madison... State Representative Tyler August (R-Lake Geneva) released the following statement in response to the recent violent acts at the United States Capitol building:

“As Americans, we value the republic and rule of law. Violence is never justified. That statement was just as true last year during the riots in Kenosha, as it was yesterday when our nation’s Capitol building was breached. Law and order is a foundation of our free society and those who violate the law must be prosecuted to the fullest extent of the law.”
