Bipartisan Support for COVID-Relief Bill

MADISON – Members of the Wisconsin Senate Republican caucus issued the following statement regarding the passage of Assembly Bill 1 Senate Substitute Amendment 1:

“This is the unified governance our state needs right now. It’s refreshing to start off the year and legislative session with a comprehensive, bipartisan plan we can confidently share with constituents as we continue to combat COVID-19 and safely re-open our state.

“We look forward to the Governor signing the bill as soon as it reaches his desk.”
