Green Bay Area Legislators Call for Election Reform

Green Bay... Reps. John Macco and David Steffen released the following joint statement after a report was circulated detailing a third-party's involvement in Green Bay's central count location during the 2020 election. According to the report, this third party was political in nature and was given access to ballot storage locations at the urging of the Green Bay Mayor's office.

"It is easy to see why thousands of Wisconsinites have lost confidence in our electoral process when cases like this are allowed to occur in conjunction with elected officials. There is a real need for election reform and certainly a duty to expose cases like this one. As Vice-Chair of the Audit Committee, I find it essential that we work to restore confidence in our elections. That is why I voted to direct the non-partisan Audit Bureau to conduct a comprehensive audit of the 2020 election and I look forward to the results of that investigation." – **Rep. John Macco (R-Ledgeview)**

In addition to the audit being conducted by the non-partisan Audit Bureau, the Assembly Committee on Campaigns and Elections held a hearing on Wednesday, March 10, to further investigate what occurred in Green Bay during the 2020 election.

"A majority of Americans have lost confidence in our elections process. In order to preserve our democracy, it is critical that we restore and protect the integrity of the vote through comprehensive election reform." – **Rep. David Steffen (R-Howard)**
