## **Rep. Macco Praises Passage of Assembly Bill Protecting Pre-Existing Conditions**

**Madison...** Representative John Macco (R-Ledgeview) released the following statement after passage of Assembly Bill 34 which prohibits insurance companies from denying coverage due to a person having a pre-existing medical condition.

“This is simply good policy,” said Rep. Macco. “My wife is a cancer survivor and many Wisconsinites have loved ones with pre-existing conditions. Nobody wants to see them lose access to their health insurance and today the Assembly acted to protect that access.”

Assembly Bill 34 passed the assembly with strong bipartisan support and guarantees that Wisconsinites with pre-existing conditions will not be denied coverage or charged higher premiums due to their pre-existing condition, should the Affordable Care Act be struck down in the courts.

“I voted last session to protect those with pre-existing conditions and I fully support this important legislation,” said Rep. Macco. “I look forward to the Senate expeditiously passing this bill so it can be sent to the Governor’s desk and signed into law.”
