Rep. Emerson: Statement on Assembly Floor Session

MADISON – Today, the Wisconsin State Assembly met in regular session, and took action on several Republican-led bills that will make Wisconsin's recovery from the COVID-19 pandemic likely more difficult and take longer. Rep. Emerson (D-Eau Claire) released the following statement in response:

"We need to be responding to the actual concerns and needs of the people of Wisconsin as we continue to combat COVID-19 in our state. Legislative Republicans have been playing a political game during this pandemic while Wisconsinites have been asking elected officials to prioritize their health and safety for over a year. Despite Republicans' actions today, I will continue to work towards ensuring that the safety of our families and our communities are prioritized above political games and pseudo-science, because that is what my constituents expect and deserve."
