## **Rep. McGuire Statement on Gov. Evers' \$600M Investment in Small Businesses**

MADISON – Rep. Tip McGuire made the following statement on Gov. Evers' announcement that he will be designating \$2.5 billion to economic recovery in Wisconsin, including an additional \$600 million in small business support:

"The health of our Main Street businesses - who have dealt with challenge after challenge over the last year - is essential to creating good, family-supporting jobs in our community and ensuring a strong economic comeback and sustained prosperity in our state. Throughout the COVID-19 pandemic, Gov. Evers has made historic investments in our state's small businesses, and is able to continue to support Main Street thanks to President Biden's leadership in making these funds, along with direct stimulus for working people, a reality via the American Rescue Plan Act."
