# Republican Party of Green Lake County

Press release. For immediate release

Tag: Republican Party, Green Lake County, Wisconsin Election Commission, Marge Bostelman

With ongoing investigations into Wisconsin election integrity, with concerns regarding the failure of the Wisconsin Election Commission to follow Wisconsin election law, with obvious evidence of the complete disregard of the WEC to enforce responsible election oversight and integrity, let it be known to all that the officers of the Republican Party of Green Lake County hereby issue our notice of strong disapproval and denunciation of the WEC, and specifically, Commissioner Marge Bostelmann, resident of Green Lake Co.

Commissioner Bostelmann ran, and was elected to serve, as the Green Lake County Clerk as a Republican, a position she held for many years. As one of the 3 appointed Republican Commissioners to the WEC, her actions as a member of the Commission do not reflect the principles, values and beliefs of the Green Lake County Republicans, in this case, supporting the proper enforcement of the law and of election integrity. So we wish to make it clear that Ms Bostelmann is no longer a member of the Republican Party of Green Lake County.

Our country is under a full-on assault by untold numbers of people, groups, and foreign actors, all wishing to gain control and fundamentally change our uniquely American way of life. From local governments, to the press, bureaucrats, and elected officials (and sadly, our delusional RINO's) the indoctrination undermining our God-given rights and freedoms is widespread and currently very effective.

We are a conservative county, we are one of the smallest counties in the state, but by the strength of our determination, our message, our values, and vision for saving our republic will be proudly proclaimed and promoted to all!
