

LLWC Endorses Ron Antonneau for Brown County Board of Supervisors

Ron Antonneau, a local leader, who has spent his career bringing together business and labor has announced his candidacy for Brown County Board. Ron supports our first responders and local police and fire departments. Today, many elected officials claim to support organized labor. However, some have lost sight of what that actually means. Ron is not one of those people. Ron has a track record of supporting good union jobs including:

- Playing an instrumental role in adopting a PLA (Project Labor Agreement) for the construction of the Weston 4 power plant
- Coordinating local fundraising efforts for the Green Bay Convention & Visitor Center scheduled to be built with union labor in 2022
- Successfully advocating for the Brown County sales & room tax resulting in over \$300M of capital construction including the Resch Expo
- Mobilizing opposition to a meaningless anti-Enbridge pipeline resolution at the Green Bay City Council (which was defeated) that will create union jobs
- Honorary member of UA Local 400

Ron supports reinstatement of prevailing wage, fairness, opportunity and equality for everyone. Sadly, these ideals are under siege. To effectively counter these attacks, labor leaders must commit to utilizing new winning campaign strategies.

Labor Leaders for Winning Campaigns proudly endorses Ron Antonneau.

Terry McGowan
Operating Engineers Local #139
