**Business Professional joins School Board Race in**  
**Ashwaubenon**

**Green Bay, Wisconsin --- Alexander Alberts, candidate**  
**Ashwaubenon School Board.**

Hello, my name is Alexander Alberts, and I am a 24-year-old Young Professional entering into the race for one of two open school board seats in Ashwaubenon. I was born, raised, and currently reside in Ashwaubenon, WI, having graduated from Ashwaubenon Highschool. I then went on to pursue my undergrad in Accounting, Finance, Business Analytics, and German at the University of Wisconsin Green Bay, and have since worked as a Financial Analyst down in the Fox Valley.

My motivation and justifications for joining the school-board race are quite simple. I love Ashwaubenon, my home, and I have it to thank for my wonderful upbringing, the countless opportunities both personal & professional that I have received in my life, and for simply making me into the person I am today. It is of paramount importance to me, and I believe to our community at large, to ensure that the quality education Ashwaubenon is known for, and that I certainly received, is protected, and guaranteed to all future students of our village. This means ensuring that all students are provided a safe and comfortable environment to learn and grow no matter their background, identity, economic circumstance, or otherwise. As national and state-politics continue to seem to spiral out of control, I think it is more crucial than ever before to equip our school board with members of our community who are grounded, courageous, and willing to stand up for Ashwaubenon students, parents, and teachers despite any challenges, big or small, that may be faced in doing so. I am more than ready to take on this responsibility, and I know that my youth and professional experience will provide me with the energy, vigor, enthusiasm, grit, and knowledge needed to make the right decisions for our community every time.

Not only is it of utmost importance to preserve the greatness of Ashwaubenon' Schools, but it is also crucial to keep moving our school district forward and looking for more

opportunities to enrich student's lives beyond the classroom. Throughout my time in Ashwaubenon Schools, I was heavily involved in the Arts, both Music and Foreign Language (German), and recognize the tremendously positive impact they can have on a student's education and life. That is why I am dedicated to promoting and protecting the Arts, Sports, and all extra-curricular functions from any threats, whether they be social or financial in nature. Our students deserve the very best education, and that includes opportunities to test out new & different hobbies and skills that can benefit them, and ultimately the world around them, for the rest of their lives.

In my mind, the very best education possible is achievable only by facilitating a balanced dialogue between students, their parents, and the teacher. This means providing parents and students with the decision-making ability to determine their own educational plan, while at the same time providing educators with the tools and resources needed to make them strong and skilled advisors when working with students in helping them to develop these plans. I am dedicated to being a facilitator of communication between our community and our schools, and I think this only becomes more important as external politics continue to intensify and creep into the classroom. Our community needs to know that the people in charge of overseeing the functions of our school district have their best interests in mind, and this mindset is only obtainable through constant communication between board members and their constituents. My goal in running for school board is to introduce and support new channels of communication between our school board and community at large, to support this necessary dialogue in Ashwaubenon and in doing so, support the direction of our schools as we move forward into this next decade.

Having been a graduating senior some short six years ago, I know and have experienced the quality education that Ashwaubenon Schools provide. I know first-hand the quality of our programs, the dedication and hard work of our educators and school staff, and the dreams and aspirations of Ashwaubenon students as they walk through and exit our halls. I am tossing my hat into the Ashwaubenon School Board Race for them, and for you. Ashwaubenon is a one-of-a-kind place to live, to grow up, and to go to school, as I learned myself as a student. I will fight vehemently for you, for our students, for our teachers, and for our community, and I will never back down when it comes to making the decisions that put Ashwaubenon Schools first!
