Representative Dittrich Endorses Senator Patrick Testin for Lt. Governor

City of Oconomowoc — Representative Barbara Dittrich (R – Oconomowoc) released the following statement regarding the race for Wisconsin Lieutenant Governor:

“In a year of competitive elections, I have withheld my endorsements because I fundamentally believe in letting the voters choose who they best see fit. However, I believe that in the race for Wisconsin’s Lieutenant Governor, one choice rises above the others. I have had the honor of collaborating with Senator Patrick Testin for the past three years in the Legislature and have found him to be a man of integrity and commitment. Not only has he stood with me in protecting life, he has shown a unique passion to really know Wisconsinites with his “On the Job” series, where he spends one day a month actually doing a job at a business in his district. Being out among his constituents and really listening to the people of this state are qualities that will make Pat an effective public servant for the entire state. That is why today, I offer my endorsement to Patrick Testin’s campaign for Wisconsin Lt. Governor.
