April 5th Election: Resources for Voters with Disabilities

Today is election day in Wisconsin. The Wisconsin Disability Vote Coalition urges voters with disabilities to cast a ballot at their polling place, if they have not voted with an absentee ballot.

Voters should check [MyVote Wisconsin](#) for their polling place and bring photo ID to their polling place. Voters should also check [MyVote Wisconsin](#) to see if they are registered to vote. If a voter is not registered or their address has changed, they may register at their polling place. Bring a Proof of Residence document with your name and current address, such as a utility bill, bank statement, or letter from a government agency.

The Disability Rights Wisconsin Voter (DRW) Hotline is available to answer your voting questions. Call the Hotline at 844-DIS-VOTE/ 844-347-8683 or email us at info@disabilityvote.org. The Hotline can help voters check their registration and polling place, explain options for absentee ballot return, photo ID requirements, and disability related accommodations; and assist with voting rights concerns. Our [Spring Election Toolkit](#), transportation information, and other resources are on the [Disability Vote Coalition website](#).

Voters with disabilities should [know their rights](#). To ensure that our voting process is accessible to all, disabled voters have the right to request accommodations, including the following:

- **Curbside voting** should be available at every polling place for voters who have difficulty entering their polling place due to a disability, due to being immunocompromised or having symptoms of COVID-19. Two poll workers will bring a ballot to the voter, and conduct voting at their vehicle, or at the polling place entrance. Proof of identification is required. If a voter is not registered, proof of residence must be provided.

- **If a voter needs help marking the ballot, they may have a person of their choice assist them.** That person does not need to be qualified to vote. The voter may bring someone with them or request assistance from a poll worker. The assistor cannot be the voter’s employer or union representative.
- **If a voter inside the polling location cannot sign the poll list** due to a physical disability, they should inform a poll worker. The poll worker will write “Exempt by order of inspectors” in the signature space on the poll list.
- **An accessible voting machine should be available at every polling place.** This machine will allow voters to independently mark the ballot. They should be set up to allow voters who use a wheelchair to reach the controls, and have an audio ballot-marking option for voters with a visual disability.
- **The poll worker may ask voters to speak their name and address.** If a voter is unable to state their name and address, Wisconsin law allows voters to have poll workers or assistors of their choosing state their name and address on their behalf prior to receiving a ballot. Voters can also provide their information in writing to poll workers or assistors.
- **Other reasonable accommodations can be requested.** Speak to the chief inspector at your polling place.

A voter with a disability cannot be turned away from the polls because a poll worker thinks they are not ‘qualified’ to vote. Disability or medical diagnosis does not take away the right to vote. Only the courts can take away that right.

Reporting Concerns. If a voter experiences an accessibility or voting rights concern, it is important to report it. Concerns should be reported to the Chief Election Inspector at the polling place or to the Municipal Clerk. We also strongly recommend reporting the concern to the Wisconsin Elections Commission at elections.wi.gov/form/accessibility-complaint. The DRW Voter Hotline (844-347-8683) is also available to help voters who have a complaint.

About the Wisconsin Disability Vote Coalition

The WDVC is a non-partisan effort to help ensure full participation in the entire electoral process of voters with disabilities, including registering to vote, casting a vote, and accessing polling places. The Coalition is coordinated by Disability Rights Wisconsin and the Wisconsin Board for People with Developmental Disabilities and includes people with disabilities and community organizations.
