Rep. LaKeshia Myers Statement on Leaked SCOTUS Decision

MADISON – Following reports of a drafted U.S. Supreme Court decision, which would overturn the long established precedent in Roe v. Wade, Rep. LaKeshia Myers (D-Milwaukee) issued this statement:

“Last night’s reporting from Politico warns that the Supreme Court is eager to toss aside nearly fifty years of legal precedent in a callous attempt to turn back the clock on women’s rights and overturn Roe v. Wade.

We will not return to the days of harrowing backroom abortions. We will not sit quietly as our healthcare rights are stolen, leaving us with even fewer individual freedoms than our mothers had. We will stand up and we will fight to ensure that women and our daughters have control over their own body.

While we have feared this kind of action from the conservative justices on the high court, it is increasingly clear that Congress is running out of time to offer real and enduring legislative protections for women’s reproductive rights.”
