**DANE COUNTY DISTRICT ATTORNEY'S RESPONSE
TO UNITED STATES SUPREME COURT'S DECISION
TO OVERTURN ROE V. WADE**

Every day the Dane County District Attorney's Office works tirelessly fighting for women whose bodies and privacy have been violated. As your District Attorney, I have no intention of ever stopping that important work. There are plenty of archaic laws on the books that represent the values of days past. I have every intention of utilizing the power Dane County voters entrusted in me and will use my discretion to prosecute only those crimes that keep our community safe and represent our collective values. If the voters want a district attorney who prosecutes women for seeking an abortion or licensed providers who are acting in the best interest of their patients, they will need to elect someone else.
