Rep. Plumer Reacts to Governor Evers' State of the State Address

MADISON, WI – Rep. Jon Plumer released the following statement following Governor Evers' State of the State Address this evening:

“I look forward to beginning our legislative work this session, and continue addressing the issues facing our state. Wisconsin’s positive fiscal situation is due to Republicans in the Legislature leading the way by implementing common sense fiscally responsible reforms and tax relief.

While the Governor does enjoy taking credit for many of these successful Republican reforms, if he is serious about working to find common ground on certain issues, that is something we can pursue.

With an historic budget surplus projected, it is important we find a way to make significant and transformational tax reform to continue reducing the burden on Wisconsin families, seniors, and job-creators. We must also address workforce issues across the state, so businesses have the employees they need to grow and thrive. Continuing to improve education, addressing our local roads, and dealing with increased mental health and opioid treatment issues will be top priorities as well.”

Rep. Plumer represents the 42nd Assembly District which encompasses Columbia, Dodge, Fond du Lac, Green Lake, and Marquette counties.
