FOR IMMEDIATE RELEASE

GET READY, 'CAUSE HERE WE COME

Despite what the election fraud deniers will tell you, election fraud is alive and well in the State of Wisconsin. If you have election fraud, you cannot have honest elections. If you don't have honest elections, you cannot have trust in your government. If you don't have trust in your government, you cannot have equality under the law. If you don't have equality under the law, your ordinary thoughts and opinions soon become potential triggers for persecution. Consider the haunting scenario: The ominous knock of "government officials" reverberating through your hallways and the bedroom doors of your children, all because you dared to voice your convictions. They are coming for YOU.

Without a shadow of doubt there is election fraud; It runs deep and consumes politicians and bureaucrats on both sides of the political aisle. It is systemic and is a part of our own government. It extends back to the days of the Government Accountability Board (GAB) and its subsequent transformation into the present day Wisconsin Election Commission (WEC). The WEC is supported by the very politicians who've reaped the rewards of crooked election practices. Here at HOT Government, we are a part of the crusade to expose the corrupt system and those politicians and bureaucrats who run it.

On Wednesday, August 9th, HOT Government will launch its most recent campaign aimed at further exposing voter fraud in Wisconsin. This is ROUND ONE. Our overarching aim is to capture your attention and compel you to ask questions and demand action of your elected officials.

GET READY, 'CAUSE HERE WE COME.

H.O.T. Government may be reached by email at hotgovernment@gmail.com
