FOR IMMEDIATE RELEASE

### **Recall Vos Campaign Moves Forward with FBI Assistance Request and Responds to Robin 'CCP' Vos's Challenges**

Today, Recall Vos campaign presented substantial evidence to the Federal Bureau of Investigation (FBI) regarding persons Recall Vos believes were sent to sabotage the campaign through actions of fraud and forgery. Recall Vos believes the FBI will begin investigating the matters that have brought to their attention. In addition, Recall Vos is also preparing to address challenges posed by Robin 'CCP' Vos to the petition submitted. This is all part of the campaign's unwavering dedication to transparency, accountability, and the will of Racine County's citizens.

In response to concerns regarding the authenticity of certain petition signatures and potential sabotage efforts aimed at undermining our campaign, Recall Vos proactively arranged a meeting with the FBI. This crucial meeting, which lasted two hours, took place today at the FBI's Milwaukee office. During the session, our team presented detailed findings and evidence to federal law enforcement officials, emphasizing our goal to identify the instigator who orchestrated the introduction of out-of-state actors into Wisconsin to commit fraud. We are actively seeking support from all law enforcement agencies with relevant jurisdiction to help uncover the origins of these fraudulent petition signatures and the individuals behind this calculated attempt to derail our efforts to remove the most dangerously compromised politician in the State of Wisconsin. This action demonstrates Recall Vos's unwavering dedication to maintaining the integrity of our campaign and ensuring the democratic process is respected and protected.

Parallel to this, Recall Vos acknowledges the recent challenges issued by Robin 'CCP' Vos including his interpretation of the district map issues and the contesting of the validity of the recall effort. The campaign is meticulously reviewing these challenges and will utilize the full 5-day period provided to formulate a thorough response. This reflective approach ensures that every aspect of the challenge is considered carefully, maintaining the campaign's commitment to fairness and due process.

A spokesperson for Recall Vos succinctly addressed the situation, stating, “The documents Robin ‘CCP’ Vos submitted to the Wisconsin Election Commission (WEC) reveal his priorities—protecting his own position even at the cost of the Republican supermajority in Wisconsin, by endorsing the Evers maps. This move is just a smokescreen to shift focus from his connections to the Chinese Communist Party and their attempts to influence U.S. state legislators. The groundswell of support from Racine County's citizens underscores their desire for change. We are wholly committed to amplifying their voices and advocating for the integrity of our democratic processes.”

The Recall Vos campaign is at a pivotal juncture, actively engaging with both federal authorities to investigate serious allegations and preparing to address the challenges posed by Robin ‘CCP’ Vos. Through these actions, Recall Vos demonstrates its proactive stance in safeguarding electoral integrity and responding to the concerns of Racine County residents.

As developments unfold, Recall Vos remains dedicated to its mission of advocating for accountability and leadership change, inspired by the strong community support. The campaign is determined to navigate these challenges with the utmost integrity, ensuring that the democratic will of the people leads the way.
