**FOR IMMEDIATE RELEASE**

**Racine Recall Committee Calls for Immediate Resignation of Speaker Robin Vos Following Damning Revelations by State Rep. Janel Brandtjen**

Union Grove, WI – April 29, 2024 – In light of the troubling revelations brought forth by State Representative Janel Brandtjen, the Racine Recall Committee firmly believes that Speaker Robin Vos must resign from his position immediately. The detailed exposure of his deep ties with the Chinese Communist Party (CCP) associated entities suggests a compromise that cannot be overlooked in our legislative leadership.

Representative Brandtjen’s press release dated today highlighted multiple instances of Speaker Vos’ engagement with CCP-linked organizations, including his sponsored trips to Wuhan and Copenhagen, which cast serious doubts on his allegiance and integrity. As Brandtjen aptly stated, “The most alarming demonstration of potential compromise occurred in 2024 when Speaker Vos influenced the legislative process to obstruct AB269, a bill intended to restrict Chinese ownership of Wisconsin farmland. This decision poses a direct question about whose interests Speaker Vos truly represents.”

This behavior is unacceptable and poses a significant threat to the security and democratic values of Wisconsin. Any appearance of compromised behavior has no place in our state legislature, where representatives should uphold the highest standards of transparency and accountability.

Therefore, we, the Racine Recall Committee, not only support the movement to recall Speaker Robin Vos but also urge him to resign immediately to restore trust and integrity within our state governance. The evidence as presented by Representative Brandtjen is compelling and should prompt immediate action to ensure that our legislative body is free of foreign influences that conflict with American interests.

The people of Wisconsin deserve representatives who act solely in their interest, not those compromised by external, authoritarian influences. It is time for Speaker Vos to step down and allow for a restoration of trust and commitment to the constituents of Wisconsin.
