

FOR IMMEDIATE RELEASE

Nationwide Conservatives Support Recall of Robin Vos Amid Accusations of Misinformation and Compromise

Union Grove, WI – May 6, 2024 – In an unprecedented move, notable constitutional conservatives from across the nation, including former President Donald Trump’s National Security Adviser General Michael Flynn (USA Ret.), MyPillow CEO Mike Lindell, and former Wisconsin Supreme Court Justice Michael Gableman have joined forces with local leaders to call for the recall of Wisconsin Assembly Speaker Robin Vos.

Recent activities have surfaced showing Speaker Vos and his supporters actively discouraging constituents from signing a new petition, spreading misleading information about the recall effort. Contrary to claims by Vos that the recall is a partisan liberal initiative, a recently released letter shows broad support from conservative figures and groups throughout Wisconsin and the nation. This includes endorsements from several county Republican committee chairs.

Misrepresentations by Speaker Vos extend to financial concerns, with Vos citing an inflated \$450,000 cost for the recall election, whereas fiscal estimates indicate that only \$30,000 from already allocated election funds would be needed. This comes in the wake of Vos approving a controversial \$400 million grant to the Milwaukee Brewers.

Further controversy surrounds Speaker Vos after allegations by Wisconsin Assembly Member Janel Brandtjen regarding his potential compromises with the Chinese Communist Party (CCP). Brandtjen highlighted troubling

incidents where Vos appeared to obstruct legislative reforms aimed at preventing CCP acquisitions of Wisconsin farmland, raising serious concerns about his allegiances.

The Racine Recall Committee urgently requests residents of Racine County in District 63 to support the recall effort by signing the petition. The community and supporters are urged to unite in this effort to address the misleading actions and compromised positions of Speaker Vos. The full letter from constitutional conservatives and further details can be accessed through the official campaign site.

Constitutional Conservatives for the Recall of Robin Vos

As steadfast proponents of our constitutional republic, the rule of law, and the sanctity of our electoral process, we, the undersigned, assert our support for the recall of Wisconsin Assembly Speaker Robin Vos. This call transcends mere policy disagreements, emanating from a profound concern over the stewardship of our democratic institutions and the defense of our state against both internal and external threats to our cherished values.

Why We Act:

Central to our initiative is the imperative to protect our electoral system from vulnerability and to ensure our leadership adheres strictly to the rule of law. Robin Vos's engagement with the State Legislative Leaders Foundation (SLLF), particularly its partnership with a group directly linked to the Chinese Communist Party (CCP) tasked with influencing state legislators, starkly contradicts these imperatives. Such affiliations

undermine our national security, the integrity of our legislative processes, and blatantly disregard the fundamental principles of our constitutional republic.

What Concerns Us:

- The SLLF and Direct CCP Influence: The SLLF's collaboration with a CCP-associated group, under Vos's vice chairmanship, poses an unprecedented threat to our state's autonomy and the rule of law.
- State Sovereignty at Risk: Decisions that facilitate foreign entity land acquisitions within Wisconsin betray a disregard for our sovereignty and security.
- Election Integrity Compromised: Vos's hesitancy to champion strong election integrity measures betrays the foundational trust in our electoral process, a cornerstone of our constitutional republic.
- Disrespect for Constitutional Rights and the Rule of Law: Vos's actions suggest a concerning departure from the commitment to uphold the constitution and enforce the laws that govern our republic.
- Legislative Maps and Political Self-Preservation: The handling of the legislative map issue, where Vos appeared to prioritize his political survival over the Republican majority, epitomizes a troubling readiness to sacrifice collective conservative interests for personal gain.

How We Respond:

The urgent need for action to secure the integrity of upcoming elections and reinforce trust in our governance begins with the recall of Robin Vos. This step is vital for demonstrating our commitment to principles over politics and to ensuring that our representatives embody the integrity and accountability we demand.

A Call to Vigilance Across Wisconsin:

This recall effort is more than a corrective measure against one individual; it is a robust declaration to all in Wisconsin's political sphere that we are resolute in protecting our constitutional republic, enforcing our laws, and upholding the rights guaranteed by our constitution. We demand adherence to these standards by all who are elected to serve, to ensure that our governance reflects the highest principles of public service. Let this initiative remind every official that our commitment to the rule of law and the rights of our citizens is unyielding.

In championing this recall, we are not merely addressing specific failings but are reinforcing our broader commitment to the principles that underpin our constitutional republic. We call upon all who share these convictions to join us in this crucial endeavor.
