## **Rep. Sapik Statement on Second Assassination Attempt of President Donald Trump**

Madison, WI - “An American President has had not one, but two assassination attempts on his life in a single campaign season. Wisconsin is one of the most important swing states in this election, with both candidates showing a lot of presence from my beloved City of Superior to Milwaukee.

Unfortunately, our Democrat Governor has not made a single statement on these events, even after the former president was shot. This is not a time for partisanship, this is a time where we must condemn these acts and prioritize safety.

I am calling on Governor Evers to make a statement on these assassination attempts and to ensure that when our presidential candidates Donald J. Trump and Kamala Harris are in Wisconsin that they equally have the utmost security and protection that we can offer outside their own security detail, and above all else, do everything in our power to make sure our own Wisconsin residents are safe. Silence is complacency, and we cannot be complacent when American lives are on the line.”
