## **CouleeConservatives.com Files Formal Complaint with Wisconsin Elections Commission for Democrat Violations**

*Holmen— September 16, 2024* — CouleeConservatives.com announced their formal complaint to the Wisconsin Elections Commission (WEC) after discovering that local Democrats may be violating campaign finance laws. Wisconsin law describes campaign finance reporting requirements for contributions especially those that are greater than \$200 in value.

“For over a year now, WIZM has spent their time and resources on behalf of the Democrat Party of La Crosse and the Third District Democrat Party by producing and publishing a podcast featuring William Garcia, Chair of both Democrat Party organizations,” said Chris Muller, who runs CouleeConservatives.com. “I analyzed their campaign finance reports but I could find no mention for this significant in-kind contribution coming from the radio station. I can only imagine how much it must cost in time and resources to produce the podcast and then advertise it over the air on the FCC regulated airwaves. Are Democrats breaking Wisconsin law by hiding this in-kind contribution? What else are they hiding? Here in the Coulee Region, we value decency and honesty. It’s a shame that Democrat leaders don’t respect that.”

CouleeConservatives.com operates as a First Amendment sanctuary where volunteers peaceably assemble to discuss current events, write opinion articles to spread traditional American values, and encourage conservative political candidates.
