Michael Alfonso Statement on First Quarter Fundraising Totals, Setting the Pace in WI-07

[Wausau, WI] — The campaign for Michael Alfonso in Wisconsin's 7th Congressional District announced today that it has raised more than \$300,000, despite entering the race nearly a month later than other candidates. .

The fundraising total reflects broad support from grassroots donors across WI-07, underscoring the expected enthusiasm for Alfonso's candidacy and his campaign to put America and Wisconsin first. "Raising over \$300,000 is a solid foundation for any campaign," Alfonso said. "But what matters more is *why* people are contributing. Folks across the district want a serious, dedicated candidate and to elect a Representative who will show up, listen, and fight for them in Washington. I'll work to solve the issues that matter - from continuing to strengthen our borders, grow our economy, and ensure our products are made in America, to fighting back against socialism and the woke left. The support we've received from donors tells us we're on the right track."

Campaign officials emphasized that the fundraising milestone is less about headlines and more about readiness. As the campaign moves into its next phase, Alfonso will continue traveling the district, meeting with voters, and focusing on the issues that matter most to working families, small businesses, and rural communities throughout Wisconsin's 7th Congressional District.
