## **Erik Severson Endorsed by Wisconsin Family Action PAC**

Osceola, WI — Erik Severson, candidate for State Senate in Wisconsin's 25th Senate District, has been endorsed by Wisconsin Family Action PAC (WFA PAC), the state's only conservative, pro-family political action committee.

"I am honored and grateful to receive the endorsement of Wisconsin Family Action PAC," stated Severson. "WFA has been on the front lines fighting for the values that matter most to Wisconsin families — the sanctity of life, religious freedom, and strong families. These aren't just talking points for me. As a family medicine physician, I've spent nearly 20 years caring for families in northwest Wisconsin, and as a legislator, I put those values into action. I'm proud to have WFA's support, and I will continue to be a champion for pro-family, pro-life policies in the State Senate."

Wisconsin Family Action PAC is excited to endorse Erik Severson for the 25th Senate District. WFA President, Daniel Degner, shared, "The Northwoods deserve a leader that will serve in Madison and fight for families, religious freedom, educational freedom, and the sanctity of human life. This race couldn't have a clearer contrast of where the candidates stand on these issues, and we are honored to support Erik's candidacy."

During his two terms in the State Assembly, Severson built one of the strongest pro-family, pro-life records in the legislature. As Chairman of the Assembly Health Committee, he used his background as a physician to advance protections for the unborn and improve healthcare policy for Wisconsin families. Severson co-authored Assembly Bill 217, which created civil liability for performing sex-selective abortions, and co-authored Assembly Bill 216 to prohibit the state group insurance board from contracting for or providing abortion services, and consistently voted for limits on abortion throughout his tenure.

"The values that Wisconsin Family Action fights for every day are the same values I will take to Madison," Severson said. "I will always stand for life, from conception to natural death. I will defend religious freedom. And I will fight for the families of the 25th District who are watching their property taxes climb, their schools change, and their values come under attack from the radical left. With WFA's endorsement, I am more committed than ever to being a strong, conservative voice for Northern Wisconsin."
